

FIND YOUR WAY IN BERLIN!

Berlin Glas e.V. doesn't organize accommodation for the participants of the workshops, but here are some tips on finding a room or a flat to stay at while you are in Berlin.

Our studio is situated in **Provinzstrasse 42a, 13409 Reinickendorf** - somewhere between Reinickendorf, Wedding and Pankow on the map of Berlin below. It's pretty nice here, but Reinickendorf isn't exactly a home to Berlin's most popular sights. However, it has an S-Bahn (**S-Schönholz**) station nearby, as well as a bus (**Granatenstrasse**) and an U-Bahn (**U-Osloer Strasse**) station, which connect our neighbourhood to some of the hippest places in Berlin. When it comes to choosing a place to stay, our recommendation would be a more central neighbourhood with a good transportation connection to the studio - such as Mitte, Prenzlauer Berg or Wedding.

HOW TO GET TO THE STUDIO

Here is a little help on how to get to the studio from the stations nearby:

- S-Bahn station **S-Schönholz** → to get to the studio you can take lines S25, S85 or S1; when you exit the station you should take a left turn and walk ca. 400m through the Provinzstrasse to the studio.
- U-Bahn station **U-Osloer Strasse** → you can get to U-Osloer Strasse by taking any of these lines: U8, U9, Bus 125, 128, 255 or Tram 50, M13. When you are there, the easiest way to get to the studio would be taking the 150 Bus to the station Granatenstrasse (4 stations).
- Bus station Granatenstrasse → from there on the studio is just a few meters away.

The studio itself is located in a large factory complex in Provinzstrasse 42a. When you enter the complex you should go behind the very large brick building straight ahead (the largest building on the site) in order to reach our studio in the back of the complex. If you come with a car, you are welcome to drive in and park directly at the studio.

You can also always easily check the public transportation connections through the Journey Planner or the public transportation Map on the website of Berlin's public transportation system - BVG (www.bvg.de).
